

SEXUAL OFFENDERS

Do Registered Sexual Offenders live in your neighborhood?

Family Watchdog is a tool to help you find the offenders that could possibly live and work in your neighborhood... all for free to use where ever and when ever you would need.

FWD gets all of their data from all 50 states, 3 US territories, such as Guam, Puerto Rico and Virgin Islands - as well as over 80 registered tribes. This data is updated daily for accuracy.

USING FAMILY WATCHDOG

FOLLOW THESE STEPS TO USE FAMILY WATCHDOG TO SEARCH FOR REGISTERED SEX OFFENDERS

- Log onto our site at <http://www.familywatchdog.us>
- You can search by address by entering the address you want to search around and then click the "search" button.
- From there Family Watchdog will pull up a map with dots on it. Each dot represents a different type of crime. You can click each dot to see the offender's name and profile including the crime that offender was convicted of.
- OR you can click the "list view" tab above the map. The list view will list them NEAREST first to your location. You can then click the offender's name and see their profile.

You can also search by name by visiting the homepage and clicking the "Search by Name" button. If you know the offender's name, you can enter their name and select a state to search. To search more than one state, you hold the ctrl button and select your states you wish to search.

Family Watchdog hopes to make their free service quick and easy to use for everyone!

Sign up for free notifications

Family Watchdog offers free notifications for when an offender moves in/out of your neighborhood. Find out more by signing up with us on our homescreen under the Login/Register tab.
